Rochester, N. Y., Aug. 22.-There was an increased attendance at today's grand circuit races. The special events drew the crowd. John S. Johnson, paced by O'Connor, Stevenson, Weining and Seavey, tried to wheel a mile in less than two minutes. Weining, before the tral of speed, was quite badly injured by running into a fence while trying to avoid a horse. He did not leave the track. Johnson was to have received a bonus had he gone under 1:55. The

track was in good condition but John-son only made the mile in 2:024. Alix tried to beat the world's trotting record but she made a poor showing, and McDonell, the driver, only succeeded in speeding her to the mile in 2.9914. Tomorrow Johnson will endeavor to beat the half-mile horse track

record. Each of the three races today was Each of the three races today was won in one, two, three order. Azote, as expected, was the winner of the 206 trot, his best time being 2084. The carpenters say that while the vessel is very rough looking on the inside they do not see any indication of a strain in her sides. The remarkably rough appearance bears out the theory that Lord Dunraven and his fellow syndicators have sent over nothing less than a racing machine this time, in spite of the officially repeated expres-sions by English yachtsmen and the sions by lengism yachtsmen and the English press that the cup has been retained on this side of the ocean for the one reason that they have sent over yachts with cruising proclivites as a real pleasure craft, to sail against vessels bult only to race.

GEORGE R. PECK FOR PRESIDENT. ome Kansans Think of Putting Up Against

Topeka, Aug. 22.—It leaked out in Topeka yesterday that a number of Kansas Republicans who were both opposed to the administration and the instruction of Kansas delegates for Mc Kinley for President are just now engaged in organizing a Kansas boom which is planned to result in the instruction of the Kansas delegation to the national convention for George R. Peck for president of the United States This action was agreed upon a few days ago by a conference of some of the leaders in Topeka who are said to have secured the cooperation of the "smoothest politicians" in Kansas. One of the most prominent and distinguished Republicans in this state is authority for the statement that an authority for the statement that an

It might be possible for Kansas to name the nominee. If that be true why not name a Kansas man. George R. Peck is an excellent selec-tion. Let us join our forces and go against the idea of engaging in a delivery of the delegation from this state year or more prior to the conven-

One of the arguments which the new managers are using is that Mr. Peck would receive hearty support from the south on account of his famous speech on the "New South" delivered in Vir-ginia on June 11. This was a masterly oration, commending the south for its material advancement and pros-perity. It attracted widespread atten-tion throughout the southern states and it is argued that the southern Republicans would readily support a man and that man Mr. Peck against the east and against Ohio.

Governor Morrill and Chairman Leland are in favor of McKinley. The men who are preparing to boom Mr. Peck are opposed to the political policy of the governor and Mr. Leland. The leaking out of the secret may prove its destruction, but the authority for the destruction, but the authority for the destruction, but the authority for the statement that such a move is con-templated and has in fact been inaug-urated is of such a character that it can not be doubted for a moment.

SUICIDED ON A FALSE REPORT, Man Thought he was Prohibited from Marrying Again.

Chicago, Aug. 22.—Milton C. Merrill, night yard master for the Chicago, Burnight yard master for the Chicago, Burlington and Quincy railroad, living at No. 1400 Lexington avenue, committed suicide Monday night be inhaling illuminating gas. Despondency because of domestic troubles and false reports printed that an injunction had been granted in Judge Chetlain's court to his wife restraining him from marrying another woman led him to end his life. Instead of going to work as usual, Merrill stayed at home Monday night, going to bed early. Yesterday morning Mrs. Merrill, who was sleeping with her daughter in an adjoining room, awoke and instantly detected escaping gas. "Shave your Soap -so the soap makers say, es-

pecially if you're washing delicate things. Now, in the name of common sense, what's the use? When you can get Pearline, in powder form for this very reason, why do you want to work over soap, which, if it's good for anything, gets very hard and difficult to cut. Besides, Pearline is vastly better than any

powdered soap could be. It has all the good properties of any soap-and many more, too. There's something in it that does the work easily, but without harm-much more easily than any other way yet known.

Beware "this is as good as " or "the same as Pearline." IT'S FALSE—Pearline is never peddled, if your grocer sends you an imitation, be honest—send if back.

MENTAL ALERTNESS

depends very largely on the physical condition. Sluggish blood dulls the brain. A Ripans Tabule after meals will clear away the fogs in short order.

Tickets to the Bostou Conclave to be had at Cutthroat Rates.

Chicago, Aug. 22.—Knights Templar rates went to pieces here today. Tickets to the streets freely from \$10 to \$12 over the different roads by which the regular agreed rate is \$19. There seems to be a regular scramble among the roads for the business and they appear willing to carry whatever is offered them. No explanation can be given for the demoralization. Some of the roads refuse to believe that their competitors have so far lost their heads ka the Overland special averaged over 60 miles per hour, reducing the time he-tween Ogden and Chicago several hours. The Burlington special with the Cali-fornia Commandery left Ogden via the Denver and Rio Grande at 12:20 p. m., August 21 in a race with the Overland and declare they will be first in Chica-go. Both trains are making phenome-

Comrades and Friends—For the
twenty-ninth time since the organization of your noble body will you meet
in encampment. You will leave your
homes now with a smile on your griznied face, the face that wore an anxious
look some thirty years ago. The rattile of musketry, the roar of the cannon
and the screaming of the death-dealing
shells have been supplanted, through
your deeds of heroism on the field of
battle, hy bonds of peace and eternal
friendship. The breezes now waft to the
ears of your declining age those soulears of your declining age those so inspiring airs that touch the hearts

the American citizen and make them

meet on the banks of the Ohio river in a city that is famed throughout the breadth of this fair land for the hospitality of its people. Your line of march will be strewn with flowers. Old Glory will greet the eye everywhere and Louisvilleans will meet you as brothers. Let all the boys who wore the blue go; let them mingle with the good people of Kentucky, and there in friendship, blus, recall anecdotes and sing the camp-fire songs that made the welkin ring in the olden days. Your old commanders, Grant and therman, will be with you not in flesh and blood but in spirit; they will look down upon you from a home where no dissensions you from a home where no dissensions exist, and when taps are sounded for that long sleep that knows no waking, friendly hands will stretch out to guide you to the throne of your maker.
